

# ROBEL LAGER

## Senior Full-stack Developer

+1 607 214 0085 • qiaosebastian@gmail.com • <https://www.linkedin.com/in/robel-lager-26a8182bb/> • Phoenix AZ

## Summary

Full-Stack Developer with 6 years of experience in both front-end and back-end technologies, including JavaScript frameworks and Node.js. Skilled in creating responsive designs and optimizing user interfaces, with a strong focus on writing clean, maintainable code. Proficient in database and cloud solutions, with a commitment to continuous learning and innovation.

## Education

University of Toronto

Bachelor's Degree in Computer Science

09/2010 - 06/2014

## Experience

CMC Global — <https://cmcglob.com.vn/>

Hanoi, VN

Senior Lead Developer

11/2022 - 10/2023

- Developed front-end & back-end components, integrated with over four frameworks and APIs, and proficiently utilized a variety of CLI tools and configuration GUIs.
- Created and updated 4 websites with a focus on creating an exceptional user experience.
- Utilized and established 7 engaging, responsive, and mobile-optimized website designs and features.
- Created informative and effective documentation, reports, and inline comments on 100% of code/work accomplished.
- Collaborated with over 30 key stakeholders to architect sophisticated solutions, guiding the projects from initial concept through to successful production deployment.

MMC Global — <https://mmcgbl.com/>

London, UK

Senior Fullstack Engineer

11/2019 - 10/2022

- Designed, engineered, and modified 25+ software systems and custom components
- Built 30+ new software solutions by analyzing system performance standards
- Analyzed systems flow, data usage, and work processes; investigated 100% of problem areas
- Integrated existing software into 13 upgraded, modified systems for higher performance
- Developed and executed 200+ test procedures for software components
- Analyzed 30+ user requirements to derive technical software design and performance requirements
- Planned, tracked, and managed deliverables on 200+ short-term sprints and 50+ long-term deployments

The Curve — <https://thecurve.io/>

Sheffield, UK

Backend Developer

11/2017 - 10/2019

- Engineered and sustained reliable backend infrastructures for e-commerce platforms, managing over 500,000 transactions monthly with 99.99% uptime.
- Optimized SQL and NoSQL database queries, achieving a 35% improvement in data retrieval times for high-load applications.
- Contributed to the creation of an internal framework based on Express.js, which standardized development practices and reduced project kick-off time by 50%.
- Actively participated in code reviews and pair programming sessions to maintain high code quality and share knowledge within the team.
- Assisted in the development of a real-time notification system using Web Socket, enhancing user experience through immediate updates and alerts.

Unified Infotech — <https://www.unifiedinfotech.net>

New York, US

Frontend Developer

08/2015 - 09/2017

- Led the redesign of the company's flagship product, enhancing user experience and resulting in a 20% increase in customer engagement.
- Implemented responsive web design principles to ensure optimal viewing across various devices, improving mobile traffic by 35%.
- Spearheaded the migration of the frontend architecture to React.js, reducing page load times by 40% and improving the development workflow.
- Integrated RESTful APIs and constructed interactive, data-driven components, improving the efficiency of content updates and management.
- Collaborated with UX/UI designers to translate high-fidelity designs into pixel-perfect, functional web pages using HTML5, CSS3, and modern JavaScript (ES6+).
- Mentored junior developers and conducted regular code reviews to foster a culture of continuous learning and improvement within the team.

## Skills

Frontend Development: Javascript and Typescript • React/Next.js • Vue.js/Nuxt.js • Tailwind CSS • Bootstrap CSS

Backend Development: Node.js/Express.js • nest

DB: MySQL • MongoDB • PostgreSQL
